### DETAILED ACTION

1. This action is responsive to application filed 12/18/2003.
2. The disposition of the claims is as follows: claims 1 - 18 are pending in the application.  
Claim 1 is the only independent claims.

### *Allowable Subject Matter*

3. Claims 1 - 18 are allowed.
4. The following is an examiner's statement of reasons for allowance:

Applicant's only independent claim 1 stands novel over the related prior art. For instance, while the related art as given in the information disclosure statement does make use of the Generalized Hough Transform, wherein a parameterized R-table making use of one reference point is employed. However, the instant invention provides for two reference points ( $R_1$  and  $R_2$ ) associated with pairs of feature points of the pattern parameterized as a set of vectors as claimed in independent claim 1.

Therefore as claimed by the combined elements of independent claim 1, particularly steps:

(d) transforming the pattern from pattern coordinate space to a parameter space by creating a parameter table characterizing the pattern wherein pairs of feature points of the pattern are parameterized as a set of vectors with respect to at least two reference points;

(h) selecting pairs of extracted points parallel to each other in respect of their gradient angle and parameterize the pairs of extracted points;

the cited references and prior art of record lack separately and in combination the elements of said claim. Claims 2-18 depend from allowable claim 1 and therefore are also allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
